### **What does Resource Rx LLC do?**

We leverage the combined purchases of pharmacies to obtain volume based pricing. Our Suppliers provide us file updates weekly and price changes as they occur. If a product the pharmacy is purchasing goes down in price Resource Rx will automatically pass that savings to the pharmacy on their next order. Resource Rx constantly looks for lower pricing to make sure the pharmacy receives the best price every day.

### **What are the Details?**

- These are not one time buys. Products are continually available subject to the usual exceptions (manuf discontinues product, recalls, etc.).
- We do not change manufacturers. If we get a lower price on another manufacturer we will list both products. The pharmacy makes the decision on changing manufacturer
- Product dating 12+ months (Short dated product shown with expiration date)
- PDMA Compliant. Pedigrees available either electronically or hard copy - varies by supplier.
- No Own Use Restrictions
- The pharmacy purchases product directly from the supplier and pays the supplier.
- Supplier payment terms:
  - Generics - Net 30 Days
  - Branded - Net 15 Days from receipt of product
- Returns allowed subject to each Suppliers policy. Prior Authorization from the suppliers Customer Service Department is required. Supplier/s policy available upon request.

### **How does the Pharmacy Order?**

Each week Resource Rx e-mails the pharmacy a Product File (excel) that contains 400+ drugs (also available via fax). We are working to put the file on line.

The pharmacy enters an Order Quantity and the Extended Cost is automatically calculated. The Extended Cost is applied against the Suppliers minimum shipping requirement.

Supplier G	\$150.00		\$ -	Minimum Amount is NOT met.

The pharmacy faxes or e-mails their order to Resource Rx LLC. Several of our Suppliers support Surecost and can provide Resource Rx's pricing electronically to Surecost.

- Orders e-mailed or faxed prior to 4:30 pm eastern, normally ship the same day.
- Shipping is second day - orders placed on Monday will be at the pharmacy on Wednesday. Exceptions apply for liquids and select other products.
- Resource Rx will advise the pharmacy if a product is not available.

### How does the Pharmacy open an account?

To open an account the pharmacy is asked to complete a single Application for all the Suppliers and provide a copy of their DEA Certificate and State License. It normally takes 24 hours to open an account.

I trust this overview was informative. I look forward to discussing how Resource Rx can support your pharmacy.
