

## It's not what you know.... It's what you *don't* know.

You know how and where you're making money. But do you know how and where you're losing it?

Independent retail and long-term care pharmacies, limited in the sell side of the profit equation, are often losing money - unknowingly - to the procurement and payer side. Through burdensome paperwork, unforgiving suppliers, inaccurate billing, less-than-advantageous negotiations with wholesalers, and other purchasing and operational inefficiencies, many pharmacies are leaving thousands of dollars on the table.

Resource Rx is committed to turning that around.

We can show you opportunities you might be missing.

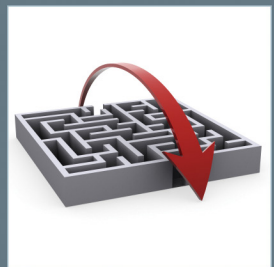

A full service organization created specifically for independent retail and long-term care pharmacies, Resource Rx offers:

- Consulting
- Leveraged Purchasing
- Payer Auditing and Management Services

Ultimately, we offer a better bottom line.

## Consulting

As your consultant, **Resource Rx** works to identify opportunities and produce savings.

### Resource Rx:

- Analyzes your present policies and procedures,
- Evaluates your purchasing activities,
- Reviews current wholesaler/GPO contract linkages,
- Maximizes rebate opportunities,
- Reviews your wholesaler and third-party generic programs,
- Researches cost savings opportunities without sacrificing quality or service,
- Suggests additional areas we believe will provide cost savings.

Are you thinking of changing your GPO or wholesaler? Ask about the independent analysis and evaluation we can provide to properly assess the financial implications of making a switch. Just one more thing we do for our clients.

---

## Leveraged Purchasing

With **Resource Rx's** innovative buying approach where we leverage the combined volume of multiple pharmacies, we can provide pricing that is often up to 10-15% lower than a pharmacy's current costs.

Our partner pharmacies realize there is value in numbers. We've developed strategic relationships with suppliers and continue to do so, negotiating on behalf of our partner pharmacies, all of whom enjoy the discounts available through our innovative program.

The best part is how easy it is. Your purchasing process remains the same. We do all the work. All you do is save money. Lots of it. You'll receive all the discounts that other **Resource Rx** members receive and you'll never pay a fee for accessing the program.

---

## Payer Auditing and Management Services

Pharmacies processing thousands of transactions per month have no possible way to review every claim for errors, margin improvement, reimbursement contract management compliance, and denial management.

But through our live analytical program, 100% of claims and fields in the adjudication can be reviewed for errors. Unlike historical Pre/Post Editing (PPE) systems that have 5-10 basic rules, this platform has over 300 Advanced Business Rules that may be customized to meet the needs of the pharmacy.

***Resource Rx is a Veteran-Owned Business.***
